

2009 Fuel Surcharge Policy

Effective May 1, 2009, Data Base Secure Records Destruction is implementing a fuel surcharge for our shredding services. The fuel surcharge is based upon Washington State AAA averages www.fuelgaugereport.com/WAavg.asp and will be adjusted monthly.

Fuel surcharge percentages and thresholds are subject to change with or without prior notice.

The surcharge will be effective when the cost per gallon of diesel rises above \$2.50 (base rate). Assume that your contracted service charge is \$30 and the cost per gallon rises to \$3.50. In dollar terms, the surcharge would be \$1.98 (\$30 X 6.6% = \$1.98).

Fuel Surcharge

As shown in the table, the base rate has been set at \$2.50.
